PROFESSIONAL SUMMARY

Computer Information Systems fresh graduate from King Faisal University with a strong foundation in Data Analysis, Business Intelligence, and Information Systems. Proficient in SQL, Python, Power BI, and Excel, with hands-on experience in data cleaning, exploratory data analysis (EDA), data visualization, and dashboard development. Experienced in transforming raw data into actionable insights, reports, and KPIs that support data-driven decision-making. Seeking to apply technical expertise and analytical capabilities to solve business challenges and improve operational performance.

EDUCATION

King Faisal University, Al-Ahsa, Saudi Arabia
Bachelor of Computer Information Systems 2019 – 2025

PROFESSIONAL EXPERIENCE

Al-Ahsa Health Cluster - Prince Saud Bin Jalawy Hospital | Data Analyst Intern Al-Ahsa, Saudi Arabia
Jun 2024 – Sep 2024

- Built 5+ Power BI dashboards tracking patient KPIs across 4 clinics, improving visibility into clinical performance and reducing manual reporting effort.
- Analyzed datasets of 10,000+ records to support healthcare performance reporting.
- Performed data cleaning and transformation using Excel and SQL.
- Built structured reports using Pivot Tables to improve reporting efficiency.
- Delivered actionable insights to support data-driven decision-making.

PROJECTS

Sales Analysis Dashboard - (Tableau)

- Built an interactive Tableau dashboard analyzing \$280K+ sales across 6,521 orders using KPI tracking, data visualization, and geospatial analysis.
- Identified revenue patterns across regions and customer segments to support strategic decision-making.

Car Rental Reporting System - (Power BI, SQL, Excel)

- Developed interactive Power BI dashboards analyzing vehicle utilization and rental KPIs, integrating SQL and Excel data sources for automated reporting and business intelligence.

Stock Trends Analysis Dashboard - (Tableau, Tuwaiq Academy)

- Developed interactive dashboards analyzing stock price movements, trading volume, and performance using time-series analysis.
- Utilized dynamic filtering and drill-down features to uncover trends and generate actionable insights.

Tourist Guide System Tour & Tourism (Graduation Project)

- The project aims to develop a smart tourism website that helps visitors discover attractions and events in the Eastern Province of Saudi Arabia, enhancing their tourism experience and supporting the growth of the region's tourism sector in line with Saudi Vision 2030.

SKILLS

Soft Skills: Analytical Thinking | Problem Solving | Communication | Teamwork | Leadership

Technical Skills: SQL | Power BI | Excel | Python | Tableau | DAX | Data Visualization | Data Cleaning | EDA | Data Modeling | KPI Analysis | Databases | Jupyter | Git | System Analysis
