PROFESSIONAL SUMMARY

Computer Information Systems fresh graduate from King Faisal University with a strong foundation in data analysis and business intelligence. Proficient in SQL, Python, Power BI, and Excel, with hands-on experience in data cleaning, exploratory data analysis (EDA), data visualization, and dashboard development. Skilled in transforming raw data into actionable insights, building reports, and analyzing KPIs to support data-driven decision-making. Seeking an opportunity to apply technical expertise, analytical capabilities, and a results-driven mindset to solve complex business challenges, improve operational performance, and contribute to sustainable organizational growth.

EDUCATION

King Faisal University,
Bachelor of Computer Information Systems

2019 – 2025
Al-Ahsa, Saudi Arabia

PROFESSIONAL EXPERIENCE

Data Analyst Intern | Eastern Health Cluster

Jun 2024 – Sep 2024
Al-Ahsa, Saudi Arabia

- Built 5+ Power BI dashboards to visualize patient KPIs across multiple clinics.
- Analyzed datasets of 10,000+ records to support healthcare performance reporting.
- Performed data cleaning and transformation using Excel and SQL.
- Built structured reports using Pivot Tables to improve reporting efficiency.
- Delivered actionable insights to support data-driven decision-making.

PROJECTS

Sales Analysis Dashboard - (Tableau)

- Built an interactive Tableau dashboard analyzing \$280K+ sales across 6,521 orders using KPI tracking, data visualization, and geospatial analysis.
- Identified revenue patterns across regions and customer segments to support strategic decision-making.

Car Rental Reporting System - (Power BI, SQL, Excel)

- Developed interactive Power BI dashboards analyzing vehicle utilization and rental KPIs, integrating SQL and Excel data sources for automated reporting and business intelligence.

Sales Products Dashboard - Power BI

- Built a Power BI dashboard using DAX measures and data modeling to analyze product performance, customer behavior, and regional sales trends across Saudi Arabia.

Stock Trends Analysis Dashboard - (Tableau, Tuwaiq Academy)

- Developed interactive dashboards analyzing stock price movements, trading volume, and performance using time-series analysis.
- Utilized dynamic filtering and drill-down features to uncover trends and generate actionable insights.

Tourist Guide System Tour & Tourism (Graduation Project)

- Developed a full-stack web application using Flask and Python, integrating an AI-powered chatbot and interactive city maps to support tour booking and data-driven user experience across Saudi Arabia.

SKILLS

Soft Skills: Problem Solving | Analytical Thinking | Communication | Leadership | Teamwork.

Technical Skills: SQL | Python | Power BI | Tableau | Excel | Data Cleaning | Data Visualization | EDA | KPI | Databases

CERTIFICATES

- MCIT Jr Data Scientist - INE & SDA
- Python for Data Science, AI & Development - IBM
- IBM Data Analyst Professional Certificate - IBM
- Data Analysis With Python - IBM
- Data Analysis and Representation - Tuwaiq Academy
- Data Visualization with Python - IBM
